

Validator Drop

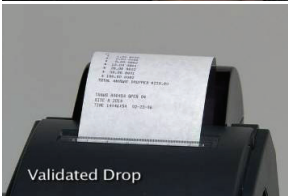

After logging in press the DROP action button.

Insert all bills until your drop is complete.

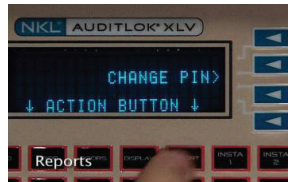

Press the ESC button after all bills are counted.

The Autobank will automatically print your receipt.

Printing Reports

After logging in press the REPORT action button.

From the menu select the specific report you want to run.

Your report will print automatically.

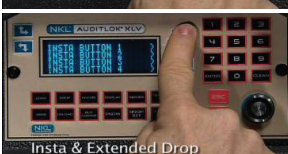

Insta-Drop

After logging in press the DROP SET action button.

Select INSTA DROP SET.

Assign one of four INSTA buttons. If you log in at the Manager level you must also assign a user.

To make a drop, the assigned user presses their assigned INSTA button and insert cash into the validator.

Press the ESC button after all bills are counted. The Autobank will automatically print your receipt. Log out by running the user's Operator Report.

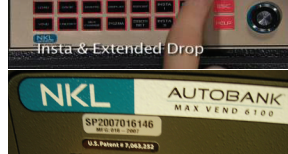

Extended Drop

After logging in press the DROP SET action button.

Select EXTENDED DROP SET. If you log in at the Manager level you must also assign a user.

The system is now operation and the validator is turned on and will count money throughout the duration of this user's shift.

The cashier logs out of EXTENDED DROP by running their Operator Report.

Logging In

1. Use your key or
2. Enter your user number and press ENTER.

Enter your PIN number.

You are now logged in.

Vending Change

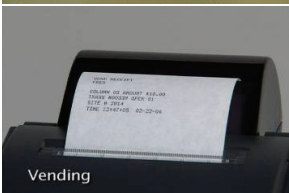

After logging in press the VEND action button.

Enter the desired number of penny rolls (ex.: enter "03" for 3 rolls). Select NEXT and repeat for nickels. Repeat as needed for all coin or tube denominations. Press ENTER to begin vending.

Retrieve the change from the dispensing tray on the door.

A vend receipt will print automatically. If you need to vend more change, you must wait until the Autobank's vend delay cycle is complete.

Note: Always check receipts for errors or low hopper messages.

Buying Change

After logging in press the BUY CHANGE action button.

Insert enough cash into the validator to cover the amount of change you want to vend out.

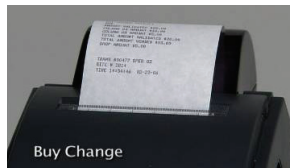

Press the VEND action button to switch over to vending mode.

Enter the desired number of penny rolls (ex.: enter "03" for 3 rolls). Select NEXT and repeat for nickels. Repeat as needed for all coin or tube denominations. Press ENTER to begin vending.

Take your change from the dispensing tray.

The Autobank will automatically print your receipt showing the total validated, total vended, and net drop.

Example: If you drop \$20 and vend \$15 in change, your net drop is \$5.
