

NKL[®] BSD

Intelligent Manual Drop Safe

NKL[®] INTELLISAFE[®]

NKL[®] "Intellisafe" BSD Series safes are easy to use and highly secure. Designed for retail applications where burglary, robbery and internal theft are all concerns, these safes provide state-of-the-art AuditLoK[®] XL security.

Burglary Resistance: Steel construction, five-point boltwork, auto-detent, and relocker; burglary alarm.

Robbery Resistance: Programmable delay & timelock; duress alarm

Internal Theft Resistance: 10,000 line audit history; 3 permission levels with positive identification (USER/PIN or E-KEY/PIN)

Armored Car Support: Immediate & secure Armored Car access

Manual Drops - Inner Compartment: Anti-fish steel drop drawer; drops secured in inner compartment

Main Compartment: Designed to hold multiple register tills (quantity depends on model) or anything else of value.

Optional Coin Racks: Enhance your safe with optional coin racks mounted inside the main door.

Remote Connectivity: Access your safe to pull reports and manage users from any PC via network using NKL's XLiP software.

Reports: Connect a standard journal printer to your safe to print Audit and Configuration reports.
